

# Edward M. Kosower

Professor of Chemistry  
1961-1973

Physical Organic Chemist and Creative Explorer

Lest I Forget Thee, Glutathione...,  
*Nature*, **224**, 117 (1969).

Professor Kosower investigated charge-transfer complexes, electron-transfer reactions, solvent polarity parameters, and stable free radicals. He addressed challenges in biology and medicine, especially those involving diazenes and glutathione.
