About these data: Prior to 1987, enrollments for Stony Brook's East Campus programs are recorded in IPEDS/HEGIS as the SUNY Health Science Center at Stony Brook (UnitID 196282). In general, the official census date is the 15th day of the fall semester. Some enrollments previously reported on the former OIR website have been restated to conform with IPEDS reporting standards. Counts do not include students who are exclusively auditing classes, enrolled in courses that cannot be applied toward a formal award, residents or interns in medical programs, students in additional locations abroad, and students studying abroad when their enrollment serves only as an administrative record.

Data sources: IPEDS Data Center, 1980, 1984-present. Prior years are from statistical records maintained in the Office of Institutional Research, Planning & Effectiveness
