INTERESTED IN TEACHING KOREAN?

Join us in learning about the Korean Teacher Education program in Asian and Asian American Studies (AAAS). It is an undergraduate major designed to satisfy New York State's requirements for initial certification as a teacher of Korean at the secondary level (grades 7-12). Upon successful completion of all AAAS and Professional Educational Program (PEP) degree requirements and NY State licensure tests, you will obtain Initial Certification to teach Korean in public schools of grades 7-12 in NY State.

INTERESTED IN STUDYING IN KOREA THIS SUMMER?

We offer a brand-new faculty-led study abroad program this summer. It will allow you to discover and explore the lives of Korean people, society, and culture through a combination of trips, peer interactions and classroom lectures at Sungkyunkwan University in downtown Seoul. Scholarship funding is available through the Center for Korean Studies of \$500 for up to 20 students. This program consists of a pre-departure program and three weeks of the in-country program (June 20 - July 8), followed by a post-program, led by SBU faculty.
